

ASSUMPTION OF THE RISK AND WAIVER OF LIABILITY RELATING TO
COVID-19/CORONAVIRUS

The novel coronavirus - COVID-19, has been declared a worldwide pandemic by the World Health Organization. COVID-19 is extremely contagious and is believed to spread mainly from person-to-person contact. As a result, federal, state and local governments and federal and state agencies recommend wearing a face mask, social distancing and have, in many locations, prohibited the congregation of groups of people.

Salinas Bobby Sox Softball has put in place preventative measures to reduce the spread of COVID-19; however, Salinas Bobby Sox Softball **CANNOT GUARANTEE** that you or your daughter(s)/grand-daughter(s) will not become infected with COVID-19. Further, **attending activities at the Salinas Bobby Sox Softball softball fields could increase** your risk and your daughter(s)/grand-daughter(s) risk of contracting COVID-19.

By signing this agreement, I acknowledge the contagious nature of COVID-19 and voluntarily assume the risk that my daughter(s)/grand-daughter(s) and I may be exposed to or infected by COVID-19 by attending activities at the Salinas Bobby Sox Softball fields and such exposure or infection may result in personal injury, illness, permanent disability and death. I understand that the risk of becoming exposed to or infected by COVID-19 at the Salinas Bobby Sox Softball fields may result from the actions, omissions, or negligence of myself and others, including but not limited to, Salinas Bobby Sox Board/volunteers, and other program participants and their families.

I voluntarily agree to assume all of the foregoing risks and accept sole responsibility for any such injury to my daughter(s)/grand-daughter(s) or myself (including, but not limited to, personal injury, disability, and death), illness, damage, loss, claim, liability, or expense of any kind that my daughter(s)/grand-daughter(s) or myself may experience or incur in connection with our attendance and participation in activities at the Salinas Bobby Sox Softball fields.

On my behalf, and on behalf of my daughter(s)/grand-daughter(s), I hereby release, covenant not to sue, discharge and hold harmless Salinas Bobby Sox Softball, it's employees/volunteers, agents and representatives, of and from Claims, including all liabilities, claims, actions, damages, costs or expenses of any kind arising out of or relating thereto. I understand and agree that this release includes any Claims based on the actions, omissions, or negligence of Salinas Bobby Sox Softball, it's employees/volunteers, agents and representatives, whether a COVID-19 infection occurs before, during, or after participation in the League.

COVID-19: Quarantine vs. Isolation

QUARANTINE keeps someone who was in close contact with someone who has COVID-19 away from others.

If you had close contact with a person who has COVID-19

- The best way to protect yourself and others is to [stay home for 14 days](#) after your last contact. Check your [local health department's website](#) for information about options in your area to possibly shorten this quarantine period.

- Check your temperature twice a day and watch for symptoms of COVID-19.

- If possible, stay away from people who are at higher-risk for getting very sick from COVID-19.

ISOLATION keeps someone who is sick or tested positive for COVID-19 without symptoms away from others, even in their own home.

If you are sick and think or know you have COVID-19

- Stay home until after
 - At least 10 days since symptoms first appeared **and**
 - At least 24 hours with no fever without fever-reducing medication **and**
 - Symptoms have improved

If you tested positive for COVID-19 but do not have symptoms

- Stay home until after
 - 10 days have passed since your positive test

If you live with others, stay in a specific “sick room” or area and away from other people or animals, including pets. Use a separate bathroom, if available.
